

How To Increase Your Effectiveness In Using Specification MIL-S-8805

The following information is intended to increase your effectiveness in using the Specification MIL-S-8805, minimize your costs and reduce delivery time for switches procured to the Specification.

Standard Items (Shown on QPL 8805)

MICRO SWITCH suggests the following statement be used when ordering items appearing on QPL 8805:

"MICRO SWITCH" catalog listing No. _____ listed on QPL 8805 as No. _____."

Should additional requirements be needed for application of the switch in its end use, they should be specifically stated as part of the ordering information.

Non-Standard Items (Not shown on QPL 8805)

MICRO SWITCH suggests the following statement be used when ordering items which do not appear on QPL 8805:

"Switch drawing No. _____ shall meet the following performance requirements of MIL-S-8805."

The above statement to be supplemented by the performance requirements which you consider applicable.

Why The Suggested Statements Will Minimize Cost and Delivery of Non-Standard Items

Military Specification MIL-S-8805 requires a complete qualification test of non-standard items (**unless you specifically call out the performance requirements which you consider applicable to your switch application**). Complete qualification is costly and will delay shipment of switches. By specifying all those requirements which you consider applicable you can minimize both your cost and delivery flow time. General statements, such as "switch must meet requirements of MIL-S-8805", require complete MIL-S-8805 qualification tests.

MICRO SWITCH believes that you, the user, know best the specific requirements of your application. These requirements may be more or less severe than those reflected by the test parameters of MIL-S-8805. In the interest of supplying switches which will meet your requirements with a minimum of expense and delay, we suggest use of the applicable statement provided for Standard (QPL) items and Non-Standard items (not on QPL). MICRO SWITCH solicits submittal of your proposal prints for review and comment. This review may result in savings of time and dollars for you.

ELECTRICAL RATING

L191: 15 amps, 125, 250, 277 VAC; ½ Hp, 125 VAC; 1 Hp, 250, 277 VAC; 5 amps, 125 VAC "L"

L192: 10 amps, 125, 250, 277 VAC; ¼ Hp, 125 VAC; ½ Hp, 250, 277 VAC; 3 amps, 125 VAC "L"

TERMINAL CIRCUIT IDENTIFICATION

Terminal identifications are referenced in the order guides to indicate which circuits are made in each toggle position (e.g., "1-2" refers to circuit closure through terminals 1 and 2).

	1-2, 4-5**	1-2, 5-6	2-3, 5-6**	L192	32NR91-70

Top specify above-panel mount rockers: add 4 (after the "NR") to specify the above panel version. Example: 31NR91-5 becomes 31NR491-5.

ROCKER BUTTONS ORDER GUIDE

Rocker Color	Catalog Listing
White	12PA12-W
Red	12PA12-R
Yellow	12PA12-Y
Black	12PA12-BK
Green	12PA12-G
Blue	12PA12-BL

* Does not include rocker button. Order separately from chart.
 ** These positions are momentary. All others are maintained.
 *** Toggle lever is blocked from these positions. Toggle becomes 2-position, with center being one extreme position.

MATING CONNECTORS ORDER GUIDE

Description	Catalog Listing
2-pole connector	19PA168-NT
1-pole connector, same package size as 2-pole connector	19PA169-NT
